

Adding Words to the DMO Vocabulary with Nuance Powermic Mobile App

This job aid provides the steps to add words to the Dragon vocabulary as well as some tips and tricks for effectively using the application.

Adding Words to Vocabulary

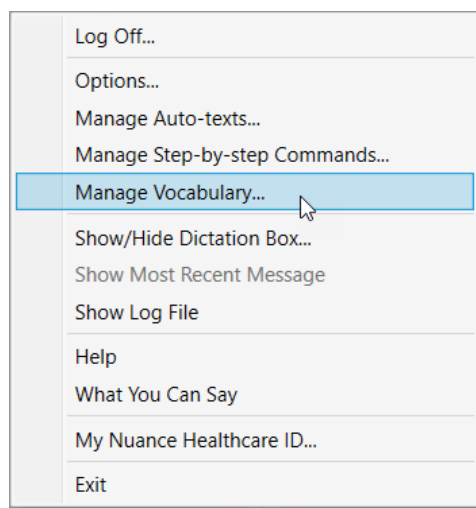

Tip ► When speaking into Dragon, it's important to make sure that you speak clearly and naturally so that Dragon can understand what you are saying.

There will be times when you may need to add words to the Dragon vocabulary, to do this follow the steps below:

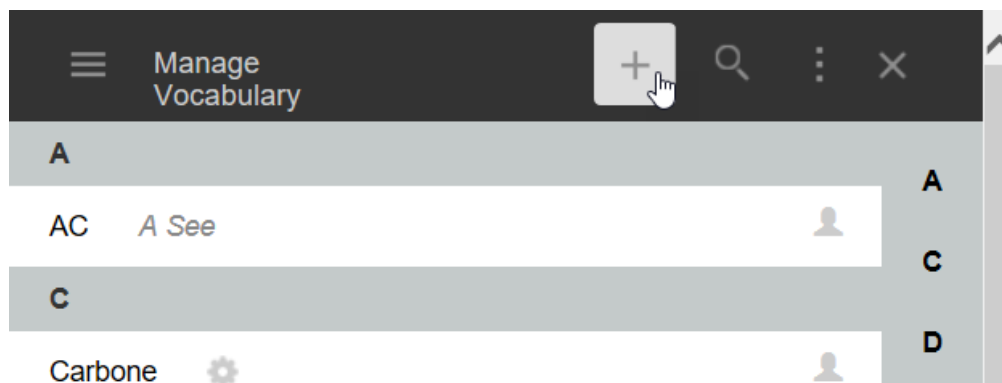

1. From the **Dragon Toolbar**, *click 3 Lines*.

2. Click **Options** from the down-down menu, *select Manage Vocabulary...*

- The **Manage Vocabulary** displays. Click the **Plus Sign** to add a word.

- In the **Enter the word you want to add** field, enter the word you want to add to the vocabulary. Example: **Elyria**.

Enter the word you want to add:

Elyria

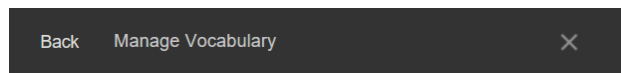

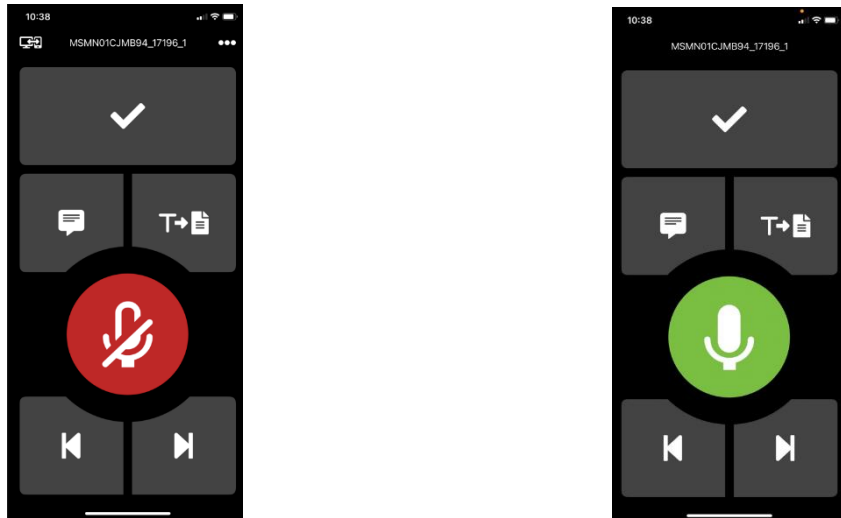

Use Default Pronunciation

Dragon provides the default pronunciation based on the word's spelling. If you pronounce it differently from the spelling you can click the microphone icon here and say the word as you would normally pronounce it.

Enter the word as you would pronounce it

- Log into the mobile app on your phone. *Click* on the **red microphone** button on your computer screen, then *tap* the **red microphone** button on your phone and say the word/name. *Tap* the **green microphone** button to turn off.

Add Word

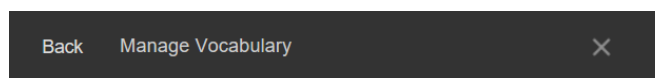

Enter the word you want to add:

Elyria ✕

Say the word as you would normally pronounce it.

- Click* **Confirm**. *Click* **X** to close.

Add Word

Enter the word you want to add:

Elyria ✕

Click **Confirm** to save the word in the vocabulary.
Click **Back** to cancel.
