University Hospitals Outpatient Rehab has created a program at the Westlake Community Center Exercise Room to help guide participants through their exercise program and answer questions. This program is intended for people who had a stroke and have graduated to outpatient rehabilitation and those who are looking for support while creating a regular exercise routine. People must be able to get off and, on the machines, independently or with help from a caregiver. We are asking each participant to discuss this with their physician and have a medical clearance form filled out. **There is a \$50 initiation fee and then an ongoing \$25 monthly fee to participate.**
